- ◆ **Enhanced Warmth:** Weighing 300 g/m², providing excellent warmth without compromising comfort.
- ◆ **ESD Protection:** Ideal for use in Electrostatic Discharge Protected Areas (EPA).
- ◆ **ESD Logo:** ESD warning logo prominently displayed on the sleeve for clear identification.
- ◆ **Black Colour:** Sleek and professional black colour, perfect for a range of environments.
- ◆ **Full Zip Design:** Easy to put on and take off with a full-zip closure.
- ◆ **Comfortable Fit:** Designed for all-day wear in both men's and women's work environments.

About the "THE CLASSIC" ESD Unisex Fleece Jacket BLACK (Full Zip)

Introducing "THE CLASSIC" Unisex ESD Fleece Jacket (Black Full Zip), a high-performance static dissipative fleece jacket designed for Electrostatic Discharge Protected Areas (EPA).

Offering superior warmth and protection, this jacket is perfect for all-day use in ESD-sensitive environments.

Made from a premium blend of 99% polyester and 1% conductive fibre, it ensures effective static dissipation while providing ultimate comfort.

Featuring an ESD logo on the sleeve, this black full-zip fleece jacket is an essential addition to your workwear for the electronics, tech, and manufacturing industries.

Perfect for industries that demand ESD protection, this jacket ensures safety from electrostatic discharge while offering warmth and comfort in every setting.

Surface resistance is held within the $10^6 < R_s < 10^8 \Omega$ range, with volumetric (permeability) resistance at $R_v < 10^7 \Omega$, ensuring continuous static dissipation throughout the working day.
