

1.0mm ESD Nibblers. (Depanelizer tool)

SKU: GT-DP10N-ESD

Features & Benefits

- ◆ Manual depaneling tool for precise PCB separation
- ◆ ESD-safe to protect sensitive components
- ◆ **Maximum PCB thickness:** 1.6mm
- ◆ **Blade thickness:** 1.0mm
- ◆ **Maximum isthmus length:** 3mm
- ◆ **Minimum isthmus distance:** 11mm
- ◆ **Maximum cutting force:** 1kg
- ◆ Produces clean and well-finished cut surfaces.

About the 1.0mm ESD Nibblers. (Depanelizer tool)

The 1.0mm ESD Nibbler is a manual depaneling tool designed for efficient and safe PCB separation.

It ensures clean and precise cuts, resulting in well-finished surfaces.

This tool is ESD-safe and offers an economical solution for depaneling tasks in various production environments.

It is ideal for separating PCBs with tabs that do not exceed 3mm in length and is suitable for handling PCBs with a maximum thickness of 1.6mm.
