

1.5mm ESD Nibblers. (Depanelizer tool)

SKU: GT-DP15-ESD

Features & Benefits

- ◆ Manual depanelizer tool for separating larger PCB panels
- ◆ ESD-safe for protecting sensitive electronics
- ◆ **Maximum isthmus length:** 3.0mm
- ◆ Leaves clean, well-finished cut surfaces
- ◆ Efficient and economical for PCB separation tasks

About the 1.5mm ESD Nibblers. (Depanelizer tool)

The 1.5mm ESD Nibbler is a manual depanelizer tool designed to efficiently separate larger sheets of multiple PCB panels. This tool offers a quick, economical, and safe solution for PCB separation while ensuring well-finished cut surfaces. Ideal for panels where the maximum length of the isthmus (tab) does not exceed 3.0mm, the ESD-safe design ensures protection for sensitive components during the process.
