

1.8mm ESD Nibblers. (Depanelizer Tool)

SKU: GT-DP18-ESD

Features & Benefits

- ◆ Manual depanelizer tool for separating larger PCB panels
- ◆ ESD-safe design for sensitive electronic components
- ◆ **Maximum isthmus length:** 3.0mm
- ◆ Leaves clean, well-finished cut surfaces
- ◆ Quick, economic solution for PCB separation

About the 1.8mm ESD Nibblers. (Depanelizer Tool)

The 1.8mm ESD Nibbler is a reliable manual depanelizer tool designed to quickly, economically, and safely separate larger sheets of multiple PCB panels.

This tool ensures clean, precise cuts while leaving well-finished surfaces.

It is ideal for use on panels where the maximum length of the isthmus (tab) does not exceed 3.0mm, with the added benefit of an ESD-safe design to protect sensitive components during the depaneling process.
