

110mm Tube - 2.5m length

SKU: 503-639

Features & Benefits

- ◆ **Compatible with 110mm Flexi Hose:** Ensures seamless integration with your extraction system.
- ◆ **Durable Material:** Built to withstand demanding industrial environments.
- ◆ **Flexible Design:** Allows for easy manoeuvrability and adjustment.
- ◆ **Efficient Fume Removal:** Enhances the overall performance of your extraction system.

About the 110mm Tube - 2.5m length

The BOFA 110mm Tube is a durable and flexible solution for a variety of extraction systems.

With a 2.5m length, it provides ample reach for connecting to compatible extraction units, ensuring efficient fume and particle removal. Designed to be compatible with the 110mm Flexi Hose, it offers easy installation and a secure connection for reliable performance in industrial and laboratory settings.

Specifications

Property	Detail
Tube Length	2.5m
Application	ESD-protected areas, electronics mfg, cleanrooms
