

# 120W TS1200D Intelligent Soldering Station SET

SKU: GQ-TS1200D

## Features & Benefits

- ◆ **Ergonomic Design:** Designed for comfort and ease of use with an intuitive, high-quality LCD display.
- ◆ **Real-Time Temperature Monitoring:** The sensor near the tip ensures precise temperature control and quick thermal recovery.
- ◆ **Easy Tip Replacement:** Quick, hassle-free tip replacement with a plug-in design that includes the heating element.
- ◆ **Three Working Modes:** Offers versatility for different soldering applications.
- ◆ **Temperature Alarm Function:** Alerts users to abnormal temperatures for safety and optimal soldering conditions.
- ◆ **Adjustable Sleep and Turn-Off Functions:** Customisable settings for energy saving and improved station longevity.
- ◆ **ESD Safe Design:** Includes built-in ESD testing functions to protect sensitive components.
- ◆ **Digital Calibration and Lock:** Temperature settings can be digitally calibrated and locked via password protection for consistency.
- ◆ **Pre-Set Memory:** Stores parameters for three different channels for easy switching between settings.
- ◆ **Long Lifetime Heater:** Durable and efficient heater designed for long-lasting performance.
- ◆ Equipped with advanced features like real-time temperature monitoring, digital temperature calibration, and three working modes, it meets the demands of even the most challenging tasks

## About the 120W TS1200D Intelligent Soldering Station SET

The Quick 120W TS1200D Intelligent Soldering Station is a powerful, lead-free soldering tool designed for professionals seeking quick thermal recovery and long-lasting performance.

Featuring an ergonomic design and a high-quality digital LCD display, the TS1200D ensures precision and ease of use. With a rapid heat-up tip and 120 watts of power, this station handles a wide range of soldering applications with consistent quality.

Equipped with advanced features like real-time temperature monitoring, digital temperature calibration, and three working modes, it meets the demands of even the most challenging tasks.

Additionally, the station offers enhanced safety with ESD protection and adjustable on/off and sleep functions.

**Quick Series TSS02 Tips are Suitable for this Soldering Station Set**

## Specifications

Property	Detail
Output Power	120W
Temperature Range	Switchable between Celsius and Fahrenheit for convenient temperature control
Application	ESD-protected areas, electronics mfg, cleanrooms
