

# 125mm Balancing Valve

SKU: 503-646

## Features & Benefits

- ◆ Regulates and balances airflow in your extraction system
- ◆ Compatible with 125mm flexi hose for easy integration
- ◆ Provides precise control over air pressure and airflow
- ◆ Ensures consistent and efficient fume extraction across multiple points
- ◆ Durable and reliable for long-term performance

## About the 125mm Balancing Valve

The BOFA 125mm Balancing Valve is designed to regulate and balance airflow within your extraction system, ensuring optimal performance.

Compatible with the 125mm flexi hose, this valve provides precise control over air pressure, enhancing the efficiency of your fume extraction setup.

Perfect for systems requiring balanced airflow, it ensures consistent extraction across multiple points, contributing to a reliable and effective operation.
