

150W TS2300D Intelligent Soldering Station SET

SKU: GQ-TS2300D

Features & Benefits

- ◆ **Ergonomic Design:** Comfortable and user-friendly with a high-quality LCD display for easy operation.
- ◆ **Real-Time Temperature Monitoring:** Sensor close to the tip detects temperature fluctuations, ensuring quick thermal recovery.
- ◆ **Quick Tip Replacement:** Simple plug-in design that incorporates the heating element, making tip changes fast and easy.
- ◆ **Temperature Alarm:** Alerts when the set temperature is exceeded to prevent overheating.
- ◆ **Adjustable Sleep and Turn-Off Functions:** Customisable settings for energy-saving and station longevity.
- ◆ **Digital Temperature Calibration:** Allows for precise temperature calibration, with password protection to lock settings.
- ◆ **Wide Temperature Range:** Switch between Celsius and Fahrenheit for maximum convenience and control.
- ◆ **High Temperature Stability:** Ensures consistent heat for high-quality soldering results.
- ◆ **Memory for 3 Settings:** Pre-set and store three temperature settings for quick switching between applications.
- ◆ **ESD Safe Design:** Includes ESD testing function to protect sensitive components from electrostatic discharge.
- ◆ **Wide Range of Tips:** Compatible with Quick Series 500 tips for added versatility in soldering tasks.
- ◆ Its intelligent features, including real-time temperature monitoring and rapid thermal recovery, make it perfect for lead-free soldering

About the 150W TS2300D Intelligent Soldering Station SET

The Quick 150W TS2300D Intelligent Soldering Station is designed for high-performance soldering, offering 150 watts of power to tackle even the most demanding applications.

With a sleek ergonomic design and an advanced LCD display, this station ensures ease of use and optimal control. Its intelligent features, including real-time temperature monitoring and rapid thermal recovery, make it perfect for lead-free soldering.

The station offers highly accurate temperature settings, with a simple plug-in design for easy tip replacement, and supports a wide range of Quick Series 500 tips.

The system also includes advanced safety functions, including ESD protection and a temperature alarm, ensuring both quality and safety during use.

Quick Series 500 Tips are Suitable for this Soldering Station Set

Specifications

Property	Detail
Output Power	150W
Application	ESD-protected areas, electronics mfg, cleanrooms
