

150W TS8 Intelligent Soldering Station SET

SKU: GQ-TS8

Features & Benefits

- ◆ **Integrated Tip & Heater Design:** Delivers sensitive feedback and precise temperature control for better results.
- ◆ **LCD Display:** Clear, easy-to-read interface for accurate temperature monitoring and adjustments.
- ◆ **Digital Temperature Calibration:** Allows precise calibration, with memory for storing three different temperature settings.
- ◆ **Intelligent Sleep/Shutdown Function:** Energy-saving mode that prolongs the lifespan of the soldering tip and heater.
- ◆ **High-Heat-Resistant Silicone Cable:** Durable and flexible, providing excellent heat resistance and safety.
- ◆ **Anti-Splash and Anti-Hit Holder:** Protects the soldering tip and ensures a tidy, damage-free work environment.
- ◆ **ESD Safe:** Protects sensitive electronic components from electrostatic discharge.
- ◆ **Compatible with TSS08 Series Tips:** Provides versatility for different soldering applications.
- ◆ **Soldering Iron Model:** Compatible with TSS80A Soldering Iron for easy operation.
- ◆ **Compact Dimensions:** 137 x 168 x 114 mm, weighing approximately 2.9 kg for easy storage and portability.
- ◆ The Quick 150W TS8 Intelligent Soldering Station is designed for high-performance soldering, featuring rapid heating, precise temperature control, and an ergonomic design

About the 150W TS8 Intelligent Soldering Station SET

The Quick 150W TS8 Intelligent Soldering Station is designed for high-performance soldering, featuring rapid heating, precise temperature control, and an ergonomic design.

Equipped with a new LCD display, this station offers real-time temperature settings and monitoring. The integrated soldering tip and heater ensure sensitive feedback and accurate temperature regulation, while the digital temperature calibration and three-channel memory storage make it ideal for professional use.

Its intelligent sleep and shutdown functions save energy and extend the life of both the tip and heater. Featuring a robust anti-splash, anti-hit holder and high-heat-resistant silicone cables, the TS8 ensures a safe and efficient soldering experience.

Compatible with:

- TSS08 Series Tips
- TSS80A Soldering Iron

Specifications

Property	Detail
Power Output	150W
Temperature Range	Adjustable from 100°C to 450°C to cover a wide range of soldering needs
Application	ESD-protected areas, electronics mfg, cleanrooms
