

2.0mm ESD Nibblers. (Depanelizer Tool)

SKU: GT-DP20-ESD

Features & Benefits

- ◆ Manual depanelizer tool for easy separation of PCB panels
- ◆ ESD-safe construction to protect electronic components
- ◆ **Maximum isthmus length:** 3.0mm
- ◆ Leaves clean, well-finished cut surfaces
- ◆ Economic and efficient tool for PCB separation

About the 2.0mm ESD Nibblers. (Depanelizer Tool)

The 2.0mm ESD Nibbler is a manual depanelizer tool designed for quick, economic, and safe separation of larger sheets of multiple PCB panels.

It delivers precise cuts, leaving clean, well-finished edges.

This tool is ideal for use on PCBs where the maximum length of the isthmus (tab) does not exceed 3.0mm.

Its ESD-safe design ensures that sensitive components are protected during the depaneling process.
