

## 2.4mm ESD Nibblers. (Depanelizer Tool)

SKU: GT-DP24N-ESD

### Features & Benefits

- ◆ Manual tool for fast and safe PCB separation
- ◆ ESD-safe design to protect sensitive components
- ◆ **Maximum isthmus length:** 3.0mm
- ◆ Provides smooth, clean cut edges on PCBs
- ◆ Economic and user-friendly solution for depaneling

### About the 2.4mm ESD Nibblers. (Depanelizer Tool)

The 2.4mm ESD Nibbler is a manual depanelizer tool designed to efficiently separate larger PCB panels in a quick, economic, and safe manner.

It leaves well-finished cut surfaces, making it ideal for high-precision depaneling. With an ESD-safe design, it ensures the protection of sensitive components.

This tool is perfect for use with PCBs where the isthmus (tab) length does not exceed 3.0mm, offering clean cuts without damaging the PCB.
