

2SA ESD CUSHION GRIP TWEEZERS

SKU: G-HT-A-2ASA

Features & Benefits

- ◆ **Manufactured from high-quality German 316L stainless steel for superior strength and corrosion resistance**
- ◆ High wear resistance for long life use
- ◆ **ESD Cushion grip** provides extreme comfort and reduces finger stress
- ◆ Anti-magnetic tips
- ◆ ESD non-slip dissipative handles with ohm's resistivity of 10^9
- ◆ Blue handles for easy identification in ESD-controlled environments
- ◆ **Precision 2SA tip** style for fine, detailed work
- ◆ Engineered to meet the requirements of **electronics**, laboratory, and precision assembly applications
- ◆ Length: 120mm

About the 2SA ESD CUSHION GRIP TWEEZERS

This 2SA Tweezer is a precision tool engineered for professional electronics, laboratory, and delicate assembly work.

Made from high-quality German 316L stainless steel, it offers excellent durability, corrosion resistance, and precise control. The blue ESD cushion rubber grips are ergonomically designed to enhance comfort while safely dissipating static electricity, making these tweezers ideal for handling sensitive components.
