

# 32mm ESD Stay Put Arm with FUNNEL

SKU: 503-550

## Features & Benefits

- ◆ **ESD Safe Design:** Protects against electrostatic discharge in sensitive environments.
- ◆ **Stay Put Mechanism:** Ensures secure positioning for continuous, efficient extraction.
- ◆ **Ideal for Tip/Volume Applications:** Effectively captures fumes and particles in various settings.

## About the 32mm ESD Stay Put Arm with FUNNEL

The BOFA ESD 32mm Stay Put Arm with Funnel is designed for precise tip and volume extraction in static-sensitive environments.

With a 750mm arm length and a 75mm funnel diameter, this system provides optimal reach and efficient fume capture. Ideal for laboratory and industrial applications, the Stay Put arm ensures consistent and stable positioning, enhancing safety and performance in your extraction processes.

## Specifications

Property	Detail
Arm Length	750mm
Funnel Diameter	75mm
Application	ESD-protected areas, electronics mfg, cleanrooms
