

32mm ESD Stay Put Arm with NOZZLE

SKU: 503-522

Features & Benefits

- ◆ **ESD Safe Design:** Protects against electrostatic discharge in sensitive environments.
- ◆ **Nozzle Included:** Provides focused extraction for tip and volume applications.
- ◆ **Stay Put Mechanism:** Keeps the arm securely in place for consistent performance.
- ◆ **Ideal for Tip/Volume Extraction:** Tailored for precise fume and particle capture.
- ◆ Featuring a 750mm arm length, this system offers flexible positioning for effective tip and volume extraction

About the 32mm ESD Stay Put Arm with NOZZLE

The BOFA ESD 32mm Stay Put Arm with Nozzle is designed for efficient and precise fume extraction in static-sensitive environments.

Featuring a 750mm arm length, this system offers flexible positioning for effective tip and volume extraction.

The integrated nozzle allows for targeted fume removal, ensuring a cleaner, safer workspace in industrial and laboratory settings.

Specifications

Property	Detail
Arm Length	750mm
Application	ESD-protected areas, electronics mfg, cleanrooms
