

3D PrintPRO 4

SKU: 503-335

Features & Benefits

- ◆ **Fume Extraction:** Special blend of chemical adsorbents combined with HEPA filters to handle emissions from 3D printing.
- ◆ **Low Noise Level:** Quiet operation for a more comfortable working space.

About the 3D PrintPRO 4

The BOFA 3D PrintPRO 4 is designed to offer premium fume extraction for large format and high-performance 3D printers. It utilises a special blend of chemical adsorbents and a high-efficiency particulate filter (HEPA) to effectively filter emissions and particles produced during 3D printing processes, ensuring a safer working environment.

Compatible with:

- Combined Filter A1030166

Specifications

Property	Detail
Voltage	115-230V for flexible use in various regions
Airflow	Min airflow: 50m ³ /hr
Max airflow	270m ³ /hr for optimal extraction performance
Dimensions	625 x 385 x 525mm
Electrical Data	230V
Noise Level	< 75dBA at typical operating speed
Weight	51kg, making it a sturdy yet manageable unit for large-scale 3D printing operations
Application	ESD-protected areas, electronics mfg, cleanrooms
