

50mm Balancing Valve

SKU: 503-683

Features & Benefits

- ◆ 50mm balancing valve designed for Flip Top connection
- ◆ Includes a Polypipe adaptor for easy integration
- ◆ Regulates and balances airflow for consistent extraction performance
- ◆ Ideal for maintaining air pressure across multiple points
- ◆ Durable construction for long-lasting and reliable use

About the 50mm Balancing Valve

The BOFA 50mm Balancing Valve is designed for use with Flip Top connections, offering precise airflow regulation for your extraction system.

This valve is equipped with a Polypipe adaptor for seamless integration, ensuring optimal fume extraction performance.

Ideal for systems requiring airflow balance, it helps maintain consistent air pressure across various extraction points, contributing to efficient and reliable operation.
