

# 50mm Connection Cuff

SKU: 503-614

## Features & Benefits

- ◆ **50mm Diameter:** Designed for use with 50mm Flexi Hose for a secure fit.
- ◆ **Threaded Rubber Design:** Provides a tight, leak-proof connection.
- ◆ **Durable Material:** Built to withstand demanding environments.
- ◆ **Easy to Install:** Simple, reliable connection for hassle-free setup.
- ◆ **Compatible with BOFA Systems:** Ideal for use with BOFA fume extraction units and accessories.

## About the 50mm Connection Cuff

The BOFA 50mm Connection Cuff is a threaded rubber cuff designed for use with the 50mm Flexi Hose.

This durable and flexible cuff ensures a secure, leak-free connection, making it ideal for fume extraction systems that require a reliable and efficient seal.

Perfect for industrial and laboratory settings, it ensures optimal performance and safety when connecting hoses to BOFA units and accessories.
