

50mm ESD Stay Put Arm with PLENUM FUNNEL

SKU: 503-549

Features & Benefits

- ◆ **ESD Safe Design:** Prevents electrostatic discharge in sensitive work areas.
- ◆ **Plenum Funnel:** Optimises fume and particle capture for improved air quality.
- ◆ **Stay Put Mechanism:** Ensures stable positioning for consistent extraction.
- ◆ **Ideal for Tip/Volume Extraction:** Tailored for precision extraction in diverse applications.
- ◆ Featuring a 790mm arm length, it offers flexibility and precise positioning for effective extraction in environments sensitive to electrostatic discharge (ESD)

About the 50mm ESD Stay Put Arm with PLENUM FUNNEL

The BOFA ESD 50mm Stay Put Arm with Plenum Funnel is a top-tier extraction system designed for tip and volume applications. Featuring a 790mm arm length, it offers flexibility and precise positioning for effective extraction in environments sensitive to electrostatic discharge (ESD).

The integrated plenum funnel ensures efficient fume capture, providing a cleaner and safer workspace for various industrial and laboratory operations.

Specifications

Property	Detail
Arm Length	790mm
Application	ESD-protected areas, electronics mfg, cleanrooms
