

50mm T Piece

SKU: 503-472

Features & Benefits

- ◆ Designed for 50mm extraction systems
- ◆ Ensures secure airflow splitting for optimal extraction performance
- ◆ Accurate measurement tolerance of +/-0.5%
- ◆ Lightweight at 700g for easy handling and installation
- ◆ Durable construction for long-lasting reliability in industrial environments

About the 50mm T Piece

The BOFA 50mm T Piece is a high-quality connector designed to split airflow efficiently in extraction systems.

With a precise measurement accuracy of +/-0.5%, this T piece ensures optimal performance and secure connections for your fume extraction setup.

Lightweight yet durable, it is built to last, making it an ideal choice for industrial environments where reliable airflow control is crucial.

With its compact dimensions of 25 x 20 x 20 cm, the BOFA 50mm T Piece fits seamlessly into your system, enhancing overall efficiency.

Specifications

Property	Detail
Dimensions	25 x 20 x 20 cm
Application	ESD-protected areas, electronics mfg, cleanrooms
