

## 600mm LocLINE arm, table bracket and grille nozzle

SKU: 503-435

### Features & Benefits

- ◆ **Grille Nozzle:** Perfect for extracting moderate dust and fumes
- ◆ Designed for the 'V' range of BOFA extraction units
- ◆ Internal nozzle structure keeps it securely in place
- ◆ Part No. A1020423 for easy identification
- ◆ Durable and reliable for consistent performance

### About the 600mm LocLINE arm, table bracket and grille nozzle

The BOFA LocLINE Hose Kit – 600mm with Grille Nozzle is specifically designed for the 'V' range of BOFA extraction products. This nozzle is ideal for extracting moderate levels of dust and fumes, ensuring efficient airflow and optimal extraction performance. With a 600mm length and a grille nozzle, it offers versatile use, and the internal design of the nozzle ensures it stays securely in place throughout operation, making it a reliable choice for maintaining a clean and safe working environment.
