

600mm LocLINE arm, table bracket and rectangular nozzle

SKU: 503-428

Features & Benefits

- ◆ **Rectangular Nozzle:** Ideal for moderate dust and fume extraction
- ◆ Designed for the 'V' range of BOFA extraction units
- ◆ Internal nozzle structure keeps it securely in place
- ◆ Part No. A1020433 for easy reference
- ◆ Durable construction for reliable, long-lasting performance

About the 600mm LocLINE arm, table bracket and rectangular nozzle

The BOFA LocLINE Hose Kit – 600mm with Rectangular Nozzle is designed for the 'V' range of BOFA extraction products, offering excellent performance for extracting moderate levels of dust and fumes.

The 600mm hose length, combined with the rectangular nozzle, provides precise coverage, while the internal design ensures that the nozzle remains securely in place during use.

This durable and effective hose kit is perfect for maintaining a clean and safe work environment.
