

## 600mm LocLINE arm, table bracket and tapered nozzle

SKU: 503-427

### Features & Benefits

- ◆ **Tapered Nozzle:** Ideal for extracting moderate dust and fume levels
- ◆ Designed for 'V' range of BOFA extraction products
- ◆ Internal structure of nozzle keeps it firmly in place
- ◆ Part No. A1020432 for easy identification
- ◆ Durable and reliable for consistent performance

### About the 600mm LocLINE arm, table bracket and tapered nozzle

The BOFA LocLINE Hose Kit – 600mm with Tapered Nozzle is specifically designed for the 'V' range of extraction products, providing efficient extraction of moderate levels of dust and fumes.

The 600mm length and tapered nozzle ensure precise control and optimal air flow, while the internal structure of the nozzle ensures it stays securely in place during operation.

A reliable addition to any extraction setup, this kit is perfect for maintaining a clean and safe working environment.
