

7" Scissors ESD

SKU: 107-117

Features & Benefits

- ◆ Made from stainless steel, offering long-lasting durability and high-performance cutting
- ◆ 7" size suitable for a wide range of tasks in static-sensitive areas and clean environments
- ◆ ESD-safe design ensures protection from electrostatic discharge (ESD), safeguarding sensitive components and equipment
- ◆ Black and silver colour for a professional, sleek appearance
- ◆ Printed ESD symbol for easy identification of ESD compliance
- ◆ Ideal for use in ESD-controlled workspaces such as electronics manufacturing, assembly areas, and testing environments

About the 7" Scissors ESD

The ESD 7" Scissor is specifically designed for use in static-sensitive areas and cleanroom environments, offering ESD protection to prevent damage to sensitive electronic components due to electrostatic discharge (ESD).

These high-quality ESD-safe scissors are made from durable stainless steel, ensuring precision cutting for a variety of tasks, while maintaining safety in ESD-controlled environments.

The black and silver colour design offers a sleek, professional appearance, and the scissors are clearly marked with a printed ESD symbol to indicate compliance with ESD safety standards. Perfect for use in assembly areas, manufacturing plants, or electronics workshops, these ESD scissors are a reliable addition to your ESD stationery.
