

70% Isopropyl Alcohol Hand Sanitiser (Disinfectant with moisturiser)

SKU: 350-16 | Sizes: 50ml Spray, 100ml Spray

Features & Benefits

- ◆ **70% Isopropyl Alcohol (IPA):** Recommended by the WHO and UK Government for effective disinfection.
- ◆ **Kills Enveloped Viruses (Including COVID-19):** Provides a reliable solution for disinfecting hands and surfaces.
- ◆ **Moisturiser Added:** Helps prevent skin dryness, leaving hands soft after use.
- ◆ **Superior Performance to Gels:** Spray format ensures more effective coverage and faster evaporation compared to gel-based sanitisers.
- ◆ **Made in the UK:** Produced to high standards, ensuring quality and safety.

About the 70% Isopropyl Alcohol Hand Sanitiser (Disinfectant with moisturiser)

This hand sanitiser is formulated with 70% Isopropyl Alcohol (IPA), offering rapid hand disinfection and is effective against enveloped viruses such as COVID-19.

With the added benefit of moisturiser, it ensures that your hands stay hydrated and soft while being thoroughly disinfected.

Perfect for: Everyday use, especially in high-touch environments like offices, hospitals, schools, public spaces, and on the go.
