

75-50mm Reducer Cuff (50mm thread)

SKU: 503-626

Features & Benefits

- ◆ Specifically designed for AD suction applications
- ◆ 50mm thread for secure and stable connections
- ◆ Enhances filtration system performance
- ◆ Improves airflow and suction efficiency
- ◆ Durable construction for long-lasting use
- ◆ This reducer cuff features a robust 50mm thread, ensuring secure and stable connections for effective filtration

About the 75-50mm Reducer Cuff (50mm thread)

The BOFA 75-50mm Reducer Cuff (50mm thread) is a high-quality accessory designed for AD suction applications, offering seamless compatibility and improved performance.

This reducer cuff features a robust 50mm thread, ensuring secure and stable connections for effective filtration.

Ideal for industrial environments, it enables efficient suction and enhances the lifespan of your filtration system by ensuring smooth airflow and optimal functionality.
