

75mm Balancing Valve

SKU: 503-617

Features & Benefits

- ◆ Balances airflow in your extraction system for optimal performance
- ◆ Compatible with 75mm flexi hose for seamless integration
- ◆ Allows for precise airflow control and pressure regulation
- ◆ Ensures consistent fume extraction across multiple points
- ◆ Durable and reliable for long-lasting performance

About the 75mm Balancing Valve

The BOFA 75mm Balancing Valve is designed to regulate and balance the airflow in your extraction system.

Compatible with 75mm flexi hose, this valve allows for precise control, ensuring optimal fume extraction performance.

Ideal for maintaining consistent airflow across multiple extraction points, it is a reliable addition to any system requiring balanced air pressure and efficient operation.
