

75mm Flexible Hose (per metre)

SKU: 503-496

Features & Benefits

- ◆ 75mm flexible hose for connecting extraction pumps to arms and nozzles
- ◆ Made from durable PVC with a steel spiral for added strength
- ◆ Priced per metre, with lengths available up to 10m
- ◆ Suitable for air, dust, gases, and sawdust extraction
- ◆ Smooth internal wall for improved airflow efficiency
- ◆ Ideal for use with 75mm connection points

About the 75mm Flexible Hose (per metre)

The BOFA A1080020 75mm Flexible Hose is an essential component for connecting your extraction pump to a 75mm arm and nozzle attachment.

Manufactured from durable PVC with a steel spiral, this hose ensures reliable performance for air, dust, gases, and sawdust extraction. Priced per metre, it is available in various lengths (up to 10m), providing flexibility for different installation needs. The smooth internal wall enhances airflow efficiency, making it perfect for use with 75mm connection points.

This product is priced per metre.
