

75mm Y Piece

SKU: 503-624

Features & Benefits

- ◆ Compatible with the 75mm Flexi Hose
- ◆ Allows splitting of airflow into two channels
- ◆ Ensures secure and reliable connections
- ◆ Optimises suction performance for multiple extraction points
- ◆ Durable construction for long-lasting use in industrial environments

About the 75mm Y Piece

The BOFA 75mm Y Piece is a high-quality connector designed for use with the 75mm Flexi Hose, allowing you to efficiently split the airflow into two separate channels.

Ideal for industrial extraction systems, this Y piece ensures a secure and reliable connection while optimising suction performance across multiple extraction points.

Its durable design makes it a perfect choice for enhancing flexibility and efficiency in your fume extraction setup.
