

857 Hot Air Handle for 959D+

SKU: GQ-857

Features & Benefits

- ◆ **Compatible with Quick 959D+ Hot Air Rework Station:** Integrates seamlessly for a powerful and reliable hot air soldering solution.
- ◆ **Flexible Nozzle Compatibility:** Works with multiple nozzle sizes, offering versatility for various soldering and rework tasks.
- ◆ **Precision Heating:** Provides controlled airflow and heat for delicate soldering and desoldering operations.
- ◆ **Reliable Performance:** Designed for professional use, ensuring long-lasting, consistent performance.

About the 857 Hot Air Handle for 959D+

The Quick 857 Hot Air Handle is designed for use with the Quick 959D+ Hot Air Rework Station, providing professionals with an efficient and reliable hot air soldering solution for rework tasks.

This handle is compatible with a variety of nozzles, offering flexibility for different applications such as SMD soldering, desoldering, and reflow soldering. With a range of nozzles, you can easily switch to the appropriate size for your specific job, ensuring precise and controlled airflow.

Compatible Nozzles:

- **A1300 8.4mm Nozzle:** Ideal for larger components or broad heat distribution.
- **A1130 4.4mm Nozzle:** Versatile size for medium to small components.
- **A1124 2.5mm Nozzle:** Perfect for fine-pitch components and precise heat application.
