

858 Hot Air Handle for 2020D+

SKU: GQ-858

Features & Benefits

- ◆ **Compatible with Quick 2020D+ Hot Air Rework Station:** Designed to integrate seamlessly with the 2020D+, delivering reliable, consistent hot air performance for a wide range of applications.
- ◆ **Versatile and Precise:** Offers controlled airflow and temperature for sensitive soldering tasks, ensuring minimal risk of damage to delicate components.
- ◆ **Flexible Nozzle Compatibility:** Easily works with a variety of compatible nozzles (available separately), allowing you to switch based on your specific task requirements.

About the 858 Hot Air Handle for 2020D+

The Quick 858 Hot Air Handle is designed for use with the Quick 2020D+ Hot Air Rework Station, offering professionals a reliable and efficient tool for precision soldering, desoldering, and rework tasks.

This handle provides excellent control over airflow, ensuring safe and effective heat distribution for delicate components such as SMDs and other fine-pitch devices. The 858 Hot Air Handle is fully compatible with the Quick 2020D+ Hot Air Rework Station, providing a seamless integration to meet all your soldering and rework needs.
