

AD 1500 iQ Stainless Steel

SKU: 503-324

Features & Benefits

- ◆ **Large filter capacity** with high airflow (1250m³/hr) and pressure (100mbar) for heavy-duty applications
- ◆ **Patented Intelligent Operating System (iQ)** for maintaining optimal airflow and filtration performance
- ◆ **Durable brushed stainless steel** construction for longevity
- ◆ Featuring BOFA's Intelligent Operating System (iQ), the AD 1500 iQ ensures continuous optimal performance, making it one of the most advanced fume extraction systems available

About the AD 1500 iQ Stainless Steel

The Donaldson BOFA AD 1500 iQ is engineered for demanding industrial environments, providing exceptional performance for heavy-duty laser extraction applications.

With its large filter capacity and high airflow, it effectively handles large volumes of particulate and gaseous organic compounds. Featuring BOFA's Intelligent Operating System (iQ), the AD 1500 iQ ensures continuous optimal performance, making it one of the most advanced fume extraction systems available.

Compatible with:

- DeepPleat DUO Pre-Filter A1030222
- Combined HEPA/Gas Filter A1030297

Specifications

Property	Detail
Noise Level	68 dBA
Voltage	230V
Frequency	50/60Hz
Full load current	24 amps / 3.3kw
Dimensions	(1205 x 615 x 790 mm) designed for industrial scale installations
Weight	146kg
Application	ESD-protected areas, electronics mfg, cleanrooms
