

AD Nano Stainless Steel 230V

SKU: 503-305

Features & Benefits

- ◆ **Compact design** (790 x 360 x 420 mm) for easy installation in limited spaces
- ◆ **Brushed stainless steel** construction for durability and aesthetic appeal
- ◆ **Reverse flow air** and DeepPleat DUO filter technology for enhanced filtration efficiency and longer filter life
- ◆ **Filter condition indicator** for easy monitoring of filter status
- ◆ Featuring advanced reverse flow air technology and DeepPleat DUO filter technology, it offers superior filtration performance and long filter life

About the AD Nano Stainless Steel 230V

The Donaldson BOFA AD Nano is the perfect fume extraction system for small-scale industrial environments and light to medium laser coding applications.

Featuring advanced reverse flow air technology and DeepPleat DUO filter technology, it offers superior filtration performance and long filter life.

With a brushed stainless steel construction, low noise level, and a filter condition indicator, the AD Nano provides a reliable and efficient solution for maintaining clean air in compact spaces.

Compatible with:

- DeepPleat DUO Pre-Filter A1030190
- Combined HEPA/Gas Filter A1030191

Specifications

Property	Detail
Noise Level	60 dBA
Voltage	230V
Frequency	50/60Hz
Full load current	1.1 amps
Airflow	of 170m ³ /hr and pressure of 30mbar for optimal fume extraction
Weight	40kg
Application	ESD-protected areas, electronics mfg, cleanrooms
