

# AD Oracle SA iQ Powder Coated

SKU: 503-310

## Features & Benefits

- ◆ Compact laser fume extractor with BOFA's Intelligent Operating System (iQ)
- ◆ Enhanced with RFA and ACF technology for superior filtration
- ◆ Ideal for lighter-use applications with a smaller pre-filter
- ◆ **Powder-coated mild steel** construction for durability
- ◆ **Electrical data:** 100-230V, 1~ 50/60Hz, full load current: 12.5 amps / 1.1kw
- ◆ The Donaldson BOFA AD Oracle SA iQ is a compact and efficient laser fume extractor that combines a powerful range of advanced features into one unit

## About the AD Oracle SA iQ Powder Coated

The Donaldson BOFA AD Oracle SA iQ is a compact and efficient laser fume extractor that combines a powerful range of advanced features into one unit.

Equipped with BOFA's Intelligent Operating System (iQ), RFA, and ACF technology, this extractor is designed for lighter-use applications, making it an ideal choice for users with lower demands.

The unit's pre-filter is smaller than the standard AD Oracle iQ, offering excellent filtration performance in a more compact design.

With a low noise level and a powder-coated mild steel construction, the AD Oracle SA iQ provides a durable and quiet solution for effective fume extraction. Available in a 115V-230V range.

### Compatible with:

- Pre-Filter A1030344
- Combined HEPA/Gas Filter A1030155

## Specifications

Property	Detail
Noise Level	60dBA
Voltage	115V-230V, single-phase
Dimensions	745 x 450 x 515 mm
Airflow	380m3/hr
Weight	58kg for a sturdy and portable solution
Application	ESD-protected areas, electronics mfg, cleanrooms
