About the ARENDAL ESD Safety Shoe

The Arendal ESD Safety Shoe is a premium, Italian-made footwear solution that combines comfort, durability, and static dissipative technology.

Designed for professionals working in Electrostatic Discharge Protected Areas (EPA), this ESD safety shoe offers EN ISO 20345:2011 certification, ensuring reliable ESD protection.

Featuring a polymeric composite toecap, antistatic polyurethane sole, and a perspiring, removable insole, the Arendal provides superior comfort and safety.

Available in sizes UK 6-12 (Euro 39-47), it's an ideal choice for unisex wear in environments where ESD protection is crucial.

The Arendal ESD Safety Shoe combines cutting-edge ESD protection with long-lasting comfort and durability, making it the perfect choice for professionals in industries where electrostatic discharge control is critical. Whether you're in electronics, manufacturing, or other sensitive environments, these shoes offer all-day protection and comfort.
