

ARUBA S3 ESD Safety Shoe

SKU: GS-ARUBA

Features & Benefits

- ◆ **Lightweight, Unisex ESD Shoe**
- ◆ **MICRO-tech Technical Fabric** – 1.8-2.0 mm thickness, offering abrasion resistance and excellent breathability.
- ◆ **Completely Metal-Free Design** – Ideal for environments requiring non-metallic footwear for electrical safety.
- ◆ **ANTI-TORSION Insert** – Enhances stability on uneven surfaces and reduces foot fatigue.
- ◆ Offering both comfort and protection, the Aruba features a lightweight and metal-free design, making it an ideal choice for professionals who need reliable ESD protection without sacrificing comfort or style

About the ARUBA S3 ESD Safety Shoe

Aruba ESD Safety Shoe – High-Quality Italian-Made Footwear

The Aruba ESD Safety Shoe is a premium, Italian-crafted safety footwear solution designed for those working in electrostatic-sensitive environments. Offering both comfort and protection, the Aruba features a lightweight and metal-free design, making it an ideal choice for professionals who need reliable ESD protection without sacrificing comfort or style. Certified to CE UNI EN ISO 20345:2012 S3 SRC ESD, this shoe is perfect for workers in electronics, pharmaceuticals, and other industries where electrostatic discharge (ESD) control is crucial. With a MICRO-tech technical fabric upper (1.8-2.0 mm thickness), the Aruba ESD shoe provides abrasion resistance and excellent breathability. The 200J polymeric composite toecap offers impact protection, while the flexible anti-perforation midsole ensures safety against sharp objects. The 3HYBRID polyurethane sole is designed to provide shock absorption, anti-slip, and abrasion-resistant properties, while the ANTI-TORSION insert enhances stability on uneven surfaces. Inside, the INSOLE 5000 offers extra comfort, with a removable, anatomic, perspiring, and absorbing design that keeps feet dry and reduces odors. The Aruba ESD Safety Shoe is fully compliant with ESD Class 3 standards (IEC 61340-4-3:2017 and IEC 61340-5-1:2016) for electrical resistance, making it a reliable and efficient choice for ESD-protected areas.

Specifications

Property	Detail
ESD Class	Yes
Lining	Breathable Fabric
Toecap	200J Polymeric Composite
Midsole	Flexible Anti-Perforation
Sole	3HYBRID Polyurethane
Insole	5000
Sizes	36-47
Weight	490g (Size 42)
Application	ESD-protected areas, electronics mfg, cleanrooms
