

Adjustable Wire stripper 0.25-0.8mm

SKU: 210-664

Features & Benefits

- ◆ **Damage-free stripping:** Ideal for stripping PVC, Teflon, and similar coated wires without damaging the wire.
- ◆ **Graduated depth stop:** Ensures stripping to precise lengths for consistent results.
- ◆ **Hardened blades:** Specially designed for long-term performance and durability.
- ◆ **Adjustable for 6 wire diameters:** Compatible with 0.25mm, 0.30mm, 0.40mm, 0.50mm, 0.60mm, and 0.80mm wires.
- ◆ **Precision cutting and stripping:** Metal cutting and stripping blade for clean cuts.
- ◆ **Integrated wire cutter:** Handles copper wires up to 0.8mm Ø.
- ◆ **Adjustable length stop:** Features a 15mm scale for precise length control.
- ◆ Featuring a graduated depth stop, it allows for stripping to exact lengths, making it ideal for precise work

About the Adjustable Wire stripper 0.25-0.8mm

The Adjustable Wire Stripper is a compact, high-precision tool designed for the repeatable and damage-free stripping of coated wires, including PVC, Teflon, and similar materials.

Featuring a graduated depth stop, it allows for stripping to exact lengths, making it ideal for precise work.

The specially hardened blades ensure outstanding long-term performance and durability.

This versatile tool is easily adjustable to accommodate 6 different wire diameters: 0.25mm, 0.30mm, 0.40mm, 0.50mm, 0.60mm, and 0.80mm.

It also includes an adjustable length stop with a 15mm scale for consistent length stripping and an integrated wire cutter that can handle copper wires up to 0.8mm Ø.
