

Aluminium ESD Drink Bottle 600ml - BLUE

SKU: G-SCB-8

Features & Benefits

- ◆ Aluminium ESD bottle with strong electrostatic discharge (ESD) protection
- ◆ Marked with the EN 61340 ESD logo for guaranteed compliance
- ◆ Removable lid for easy cleaning and dishwasher safe for convenience
- ◆ Sealed lid to prevent liquid spillage and maintain a clean workspace
- ◆ Manufactured with a special inner coating for food regulation compliance
- ◆ Ensures water stays fresh longer with no risk of substance migration
- ◆ Ideal for static-sensitive environments and everyday use
- ◆ The bottle features a removable lid for easy cleaning, and it is dishwasher safe, allowing for convenient maintenance

About the Aluminium ESD Drink Bottle 600ml - BLUE

These aluminium ESD bottles offer strong and effective electrostatic discharge (ESD) protection, ensuring that their static dissipative properties remain intact over time.

Marked with the EN 61340 ESD logo, the bottles meet stringent ESD standards, making them ideal for use in static-sensitive environments.

The bottle features a removable lid for easy cleaning, and it is dishwasher safe, allowing for convenient maintenance. When sealed, the lid prevents liquid spillage, keeping workbenches clean and safe.

Additionally, the bottle is manufactured with a special inner coating, ensuring compliance with food regulations. This coating guarantees that the water stays fresh for longer and prevents any substances from migrating from the bottle's walls into the water.

The bottle has a capacity of 0.6 litres and is designed for cold, non-corrosive beverages only, making it both practical and safe for everyday use.

Specifications

Property	Detail
Capacity	0.6 litres, designed for cold, non-corrosive beverages only
Measurements	75mm wide x 220mm high
Application	ESD-protected areas, electronics mfg, cleanrooms
