

Ambertron - 400ml

SKU: 306-102

Features & Benefits

- ◆ Ultra-pure formulation for safe cleaning of PCBs, relays, and electrical contacts
- ◆ Removes light oils and contamination effectively
- ◆ Safe for use on plastics, rubber, composites, metal, and painted surfaces
- ◆ Non-conductive and quick-drying, leaving zero residue
- ◆ Automotive and Rail industry approvals (Ford Tox No: 166300, Rail 007/007224)
- ◆ Will not produce frost during use
- ◆ 6-year shelf life from the date of manufacture

About the Ambertron - 400ml

AMBERTRON - ULTRA PURE CONTACT CLEANER

Ambersil Ambertron (400ml) is an ultra-pure contact cleaner specially formulated for critical maintenance. It effectively removes light oils, contamination, and dirt from sensitive components such as PCBs, relays, electrical contacts, and switches.

Safe for use on a variety of materials, including plastics, rubber, composites, metal, and painted surfaces, Ambertron offers quick, residue-free cleaning and is non-conductive.

With industry approvals from Ford (Tox No: 166300) and Rail (approved: 007/007224), and a 6-year shelf life, it's the perfect solution for maintaining electrical equipment.
