About the Anti Static Bubble Wrap ESD

Jiffy Anti-Static ESD Bubble Wrap is designed to provide superior protection for sensitive electronic components, offering effective cushioning while preventing electrostatic discharge (ESD).

LARGE STOCKS & SIZES AVAILABLE (see **SPECIFICATIONS**), but please note, due to the size of this product, postage costs can vary significantly, and delivery may not be available in certain areas.

We can offer weekly in-house delivery options to some locations, so please ask.

This antistatic bubble wrap features a nylon membrane that prevents air from escaping, keeping the bubbles fuller for longer and offering enhanced cushioning protection over extended periods.

To clearly distinguish this ESD bubble wrap from regular non-ESD varieties, all rolls are pink, ensuring that the correct product is always used when ESD protection is required.

This ESD bubble wrap is the ideal solution for protecting static-sensitive products during transportation or storage, offering both reliable cushioning and ESD safety.
