

# Anti Static Clear Cellulose Tape with Symbols ESD

SKU: 301-014 | Sizes: 12mm, 18mm, 24mm, 48mm

## Features & Benefits

- ◆ Clear cellulose backing for a clean, transparent finish
- ◆ Ideal for sealing packaging, static shielding bag closures, and holding DIP tubes
- ◆ Prevents damage to sensitive electronic components in manufacturing
- ◆ Securely bundles IC DIP tubes and other components
- ◆ General-purpose use for ESD-safe applications
- ◆ Use with ESD symbols to clearly indicate static-sensitive areas
- ◆ 76.2mm Plastic Core for easy dispensing
- ◆ Lead-free and RoHS compliant, meeting environmental standards

## About the Anti Static Clear Cellulose Tape with Symbols ESD

**This Antistatic Clear Cellulose Tape is a versatile and essential tool for a range of ESD applications, providing reliable protection against electrostatic discharge.**

It's ideal for sealing container packaging, securely closing static shielding bags, and holding DIP tubes in place. This tape is also commonly used in offices and antistatic work surfaces to hold notes, work orders, or instructions.

Designed specifically to prevent damage to sensitive electronic components, it's perfect for use in electronic manufacturing environments. It is also effective for general-purpose ESD tape applications and can be used with ESD symbols for enhanced static control awareness. This antistatic clear cellulose tape offers an efficient, safe, and compliant solution for a variety of static-sensitive tasks in manufacturing, packaging, and office environments.

## Specifications

Property	Detail
Reel Length	65.8M
Application	ESD-protected areas, electronics mfg, cleanrooms
