

# Attention ESD Protected Area Awareness Sign

SKU: LAB-5 | Sizes: 150 x 300mm RIGID, 150 x 300mm FLEXIBLE, 300 x 600mm RIGID

## Features & Benefits

- ◆ **Self-adhesive backing** for easy, tool-free installation
- ◆ Made from rigid Foamex material – strong, light, and durable
- ◆ Highly visible with black text on a yellow background for clear, immediate recognition
- ◆ Perfect for ESD protected areas and maintaining ESD control protocols

## About the Attention ESD Protected Area Awareness Sign

Ensure the safety and integrity of sensitive electronic equipment with our Attention ESD Protected Area Awareness Sign. Designed to clearly mark ESD protected areas, this rigid or flexible sign serves as a visual reminder to employees and visitors to observe electrostatic discharge (ESD) control protocols. Perfect for any environment that requires ESD safety, these signs are available in both rigid Foamex material and flexible options, ensuring versatility for different installation needs.

With black text on a yellow background, the sign guarantees high visibility and clear communication, making it easy for anyone to recognise ESD protected zones at a glance. The self-adhesive backing allows for easy mounting on walls, doors, or any surface without the need for additional tools. Available in two sizes – 150mm x 300mm or 300mm x 600mm, these signs are ideal for marking ESD-safe environments in industries like electronics, manufacturing, and assembly.

Ensure your workspace is properly marked for ESD protection with the Attention ESD Protected Area Awareness Sign, an essential tool for maintaining ESD safety and preventing damage to sensitive electronic components.
