- ◆ Made from rigid Foamex material – strong, light, and durable
- ◆ Highly visible with white text on a red background for clear, immediate recognition
- ◆ Ideal for indicating ESD protected areas and improving ESD control awareness

## About the Attention Leaving an ESD Protected Area Awareness Sign

Ensure clear communication of ESD control measures with our high-quality Attention Leaving an ESD Protected Area Awareness Sign. Designed to effectively alert individuals when they are about to exit an ESD protected area, this sign helps maintain strict adherence to electrostatic discharge (ESD) safety protocols. Available in both rigid and flexible options, these signs are made with self-adhesive backing for hassle-free installation.

Crafted from rigid Foamex material, these signs are strong, light, and built to last, ensuring long-term durability even in busy or industrial environments. The white text on a red background ensures maximum visibility, making the sign highly readable from a distance, even in low-light settings.

Available in two convenient sizes – 150mm x 300mm or 300mm x 600mm, these signs are perfect for high-traffic areas where ESD safety is a priority. The self-adhesive backing ensures easy and secure mounting, requiring no additional tools or fixtures.

Whether for use in manufacturing, electronics, or any environment requiring ESD protection, these Attention Leaving an ESD Protected Area Awareness Signs are a simple, effective way to reinforce ESD safety in your workplace.
