- ◆ Ideal for marking unprotected areas in environments where ESD control is critical
- ◆ Featuring bold red text on a yellow background, the sign ensures maximum visibility, making it impossible to miss

About the Attention Unprotected Area Awareness Sign ESD

Ensure effective awareness of ESD control measures with our high-quality Attention Unprotected Area Awareness Sign. This self-adhesive rigid sign is designed to alert individuals to areas where electrostatic discharge (ESD) risks may be present, helping to protect sensitive equipment and components. The sign is crafted from rigid Foamex material, offering a strong, light, and durable solution that's easy to install in any environment.

Featuring bold red text on a yellow background, the sign ensures maximum visibility, making it impossible to miss. Ideal for high-traffic areas, this sign is an essential addition to any workplace that requires ESD protection. The self-adhesive backing allows for quick and hassle-free mounting, requiring no tools or additional fixtures.

With this ESD awareness sign, you can effectively communicate the importance of ESD safety while ensuring your workspace is properly equipped to handle sensitive electronic devices.
