- ◆ Integrated lanyard hole for safe portability
- ◆ Flip the blade over for a fresh edge when one side dulls
- ◆ Featuring a squeezable handle and an easy-to-grip safety trigger, this knife ensures intuitive use while reducing the risk of injury

About the Auto-Retractable Squeeze Knife and Ceramic Safety Blades

The Auto-Retractable Squeeze Knife with Ceramic Safety Blades is an ergonomic, user-friendly tool designed for enhanced safety, especially in cleanroom environments.

Featuring a squeezable handle and an easy-to-grip safety trigger, this knife ensures intuitive use while reducing the risk of injury. The included #10524 double-ended rounded blade is perfect for low-resistance cuts and offers protection from puncture injuries. Additionally, the knife can be locked for secure storage, and the integrated lanyard hole allows for safe portability. Flip the blade when one side dulls for continued sharpness, making it both efficient and safe.

Comes with 1 x #10524 double ended rounded blade

Compatible Blades:

- Utility Blades (Serrated) #10523
- Utility Blades (Rounded) #10524
- Utility Blades (Pointed) #10525
