Auto PCB Board Unloader

SKU: 601-631

Features & Benefits

- **Touch Screen Controller**: Easy operation for operators
- **Panasonic PLC Control System**: Reliable and accurate control
- **Pneumatic Clamps**: Secure top and bottom magazine racks
- **Gas Circuit Design**: Smooth and stable PCB transmission
- **Adjustable Speed Control**: Customisable unloading speed
- **Fault Diagnosis System**: Automatic fault code display for quick troubleshooting
- **Magazine Loading Capacity**: Supports up to 3 magazines

About the Auto PCB Board Unloader

The Auto PCB Board Unloader is designed to streamline PCB unloading in production lines, ensuring efficiency and accuracy. With an intuitive Touch Screen Controller and a Panasonic PLC control system, this machine delivers precise control and stable operation. Its top and bottom pneumatic clamps securely hold the magazine racks, while the gas circuit design ensures smooth PCB transmission. The adjustable speed control and automatic fault diagnosis further enhance its reliability, making it an essential addition to any PCB manufacturing setup.

Specifications

Property	Detail
Dimensions	2065 x 845 x 1250mm (LxWxH)
Application	ESD-protected areas, electronics mfg, cleanrooms
