

Auto PCB De-Stacker

SKU: 601-633

Features & Benefits

- ◆ **Max PCB Capacity:** 400 pcs (0.6mm thickness)
- ◆ **Air Requirement:** 4-6 Bar
- ◆ **Touch Screen Controller:** Easy and intuitive operation
- ◆ **Panasonic PLC Control System:** Reliable and accurate control
- ◆ **Aluminium Structure:** Robust and stable design
- ◆ **Bottom Weight Design:** Prevents shifting under load
- ◆ **SMEMA Cable:** Compatible with other systems for smooth integration

About the Auto PCB De-Stacker

The Auto PCB De-Stacker is designed for efficient PCB handling with a user-friendly "soft touch" LED membrane control panel and Touch Screen Controller for easy operation.

Built with a durable aluminium structure, it ensures stability and reliability during operation.

The Panasonic PLC control system offers precise control, while the SMEMA cable allows for seamless integration with other production equipment.

Capable of holding up to 400 pcs (0.6mm) of PCB, this de-stacker is perfect for handling a wide range of PCB sizes, from 50 x 50mm to 460 x 460mm.

Specifications

Property	Detail
Dimensions	503 x 889 x 1200mm (LxWxH)
Application	ESD-protected areas, electronics mfg, cleanrooms
