

Black Sawtooth Metal SMT Splice Tool Scissor

SKU: G-HST-6

Features & Benefits

- ◆ Precision positioning function for accurate splicing
- ◆ Integrated sawtooth clip for secure cutting and joining
- ◆ Suitable for all sizes of SMT carrier tape
- ◆ Durable metal construction
- ◆ Designed for professional SMT assembly processes

About the Black Sawtooth Metal SMT Splice Tool Scissor

The Black Sawtooth Metal SMT Splice Tool Scissor is engineered for precision and reliability in SMT tape splicing tasks. Equipped with a precise positioning function and a unique sawtooth clip, this tool ensures clean, accurate cuts and secure joins across all sizes of carrier tape. Its robust metal construction makes it ideal for demanding production environments, delivering consistent performance in surface mount technology applications.
