

# Blade Remover Unit

SKU: 201-090

## Features & Benefits

- ◆ Holds up to 100 blades for safe removal
- ◆ Ideal for users less confident with blade handling
- ◆ Perfect for environments without immediate sharps disposal options
- ◆ Designed solely for blade removal, not for long-term sharps storage
- ◆ Encourages safe blade disposal practices

## About the Blade Remover Unit

The Swann-Morton Blade Remover Unit (BRU) is a practical and innovative tool designed to hold up to 100 blades, providing a safe solution for blade removal.

Ideal for users who may be less confident with blade handling, or for those working in areas without immediate sharps disposal facilities, the BRU offers convenience and enhanced safety.

It is specifically designed for blade removal, and attempting to use it for long-term sharps storage is strongly discouraged to ensure proper functionality and safety.
