

Bonkote Flux Pens ESD (Pack of 5)

SKU: 301-535

Features & Benefits

- ◆ **Accurate Flux Dispensing:** Ideal for precise, controlled application of flux without dripping or flooding.
- ◆ **ESD Safe & RoHS Compliant:** Safe for use in sensitive electronic environments and meets regulatory standards.
- ◆ **Refillable & Economical:** Can be refilled to maintain cost-efficiency, ensuring long-term use.
- ◆ **No Flux Evaporation:** Ensures consistent flux density, improving application quality.
- ◆ **Easy to Clean:** Easily cleaned with alcohol or water, based on flux type.
- ◆ **Pack of 5:** Supplied in packs of 5 for multiple applications (not sold individually).

About the Bonkote Flux Pens ESD (Pack of 5)

Bonkote Pens provide precise and efficient flux dispensing for a variety of applications, ensuring no dripping or flooding during use.

These pens are perfect for fine, accurate flux application on intricate work areas, while maintaining a consistent flux density.

Their ESD Safe and RoHS compliant design makes them suitable for sensitive environments, and they are compatible with a wide range of fluxes.

Bonkote Pens can be easily cleaned with alcohol or water, depending on the type of flux used, and their refillable design makes them a cost-effective choice for ongoing use.
