- ◆ Ridges along the head for easy final 1/4 turn
- ◆ Tip-type marking on the handle for easy identification
- ◆ Precision-machined tip for a secure, damage-free screw fit
- ◆ Injection-moulded handle for ultimate reliability

## About the CK Tools Dextro Screwdriver - Phillips Head

**The CK Tools Dextro Phillips Head Screwdriver is designed for precision and comfort.**

Made from premium chrome molybdenum/vanadium steel, this screwdriver is hardened and tempered for optimal performance, ensuring durability and reliability.

Its satin chrome plating provides excellent corrosion resistance, while the ergonomically designed dual-component handle offers superior comfort, control, and safety.

The screwdriver's fine neck and ridged head allow for precise fingertip control and ease during the final turn, making it perfect for a variety of tasks.
